Objective

As a dedicated engineering student with a strong passion, I am actively seeking an internship opportunity to further develop my practical skills, gain valuable industry insights, and contribute effectively.

Education

- **Narayana school**   2019
  Board of Secondary Education
  9.2

- **Narayana college**   2019-2021
  Board of Intermediatory Education
  6.9

- **GITAM University**   2021-2025
  Bachelor of technology
  6.0

Skills

- Artificial Intelligence
- Machine learning
- Programming with python
- Html
- Css
- Basic JavaScript

Projects

- **Robotics Workshop**
  Collaborated effectively within a cross-functional team to conceptualize, construct, and program robotic systems, showcasing adept problem-solving skills and technical proficiency.
- **AICTE**
  I have successfully completed an 10 week cyber security internship program during the month sep-oct 2023 and obtained certification.
- **CISCO online**
  Seeked to learn through innovative, practice-oriented courses that prepared me with real, job-ready skills. Developed with Cisco expertise and backed by learning science. Through this I earned a badge.

Achievements & Awards

- Demonstrated a commitment to excellence by successfully completing the workshop's comprehensive curriculum, covering Robot Perception, Artificial Intelligence (AI), making decisions.
